Rhino Conservation Team Project Response Rubric

Team # 2

1. **How well do these team information products fulfill the vision & goals of the team proposal?** I must say that you exceeded my expectations. I had a hard time visualizing your project based on your proposal but it is fabulous
2. **How effective are these products for you as a user & stakeholder?** I think it is fabulous..not only for myself and the CoC but for all of the groups trying to raise awareness to the antipoaching plight
3. **What improvements do you recommend?** I actually don't... it is perfect. Your visual of the sculpture is very intriguing and provides an emotional impact without having graphic visuals. I think that this sort of sculpture would leave people talking and really

thinking about what is happening in our world and the pamphlet does a nice job with the comparison of a rhino with its horn.

Comments: Excellent work...if the sculpture comes to fruition, I not only would want to see it but also bid

Thankyou
