Rhino Conservation Team Project Response Rubric

Team # 5

1. How well do these team information products fulfill the vision & goals of the team proposal? Oh MY GOSH....you guys killed it. I am so impressed
2. How effective are these products for you as a user & stakeholder? Extremely....easy to use website and nice well defined categories.
3. What improvements do you recommend? I am not even versed well enough in websites to be able to give improvement recommendations but I will say maybe more pictures of the rhinos throughout...even on my little page..

Comments: Like I said you killed it...its marvelous. My only recommendation would be more of the pictures that I gave you to use. THANK YOU SO MUCH
