## Rhino Conservation Team Project Response Rubric

Team # 6

1. How well do these team information products fulfill the vision & goals of the team proposal?

Extremely well....well thought out and full of useful and accurate information

2. How effective are these products for you as a user & stakeholder?

The thing that I like the most about this is that it is eye catching and easy to read. I like that you kept things simple and straightforward but managed a large amount of information in a small space

3. What improvements do you recommend?

I think the only recommendation that I would make is under Wildlife Vet...maybe put Kruger National Park and providing services to Rhino Orphanages (Where could you work?) rather than listing Care for Wild

Comments: LOVE THIS....I think that this is exactly the type of flyer that I could like to hand out. It gives people a sense of purpose that there is something that they specifically could do

and/or support. It is effective at bringing awareness as well as informing the public that this problem is being looked at and approached in a variety of ways. Thank you

Diana
